Powering Green Growth through Credit Unions

ABOUT CLEAN ENERGY CREDIT UNION

Our mission is to promote clean energy, environmental stewardship, and cooperative enterprises through the financial services we provide to our members.

Clean Energy Credit Union focuses exclusively on providing loans for clean energy and energy saving projects.

Our vision is a world where everyone can participate in the clean energy movement. We are making this a reality by:

Offering clean energy loans with amazing terms

Offering a variety of deposit accounts to help others afford clean energy & make investing in the clean energy movement easy and accessible. With a deposit of \$5 anyone can join the movement.

WHERE WE ARE TODAY:

- 13,200 Clean Energy Loans
- 9,714 Members
- \$243M+ in Clean Energy Loans
- \$47M+ in Member Deposits
- 950,000+ est. tons of co2 offset

Credit Unions are ready for this!

SERVING COMMUNITIES

- ✓ Community-Centered Mission
- ✓ Commitment to Financial Inclusion
- ✓ Alignment with Environmental and Social Goals
- ✓ Trust and Community Engagement

MEMBER FOCUS PROGRAMS

- ✓ Affordable Green Loans
- ✓ Opportunity to build custom programs based on community needs
- ✓ Educate and advocate in the community
- ✓ Flexibility to create successful programs over time

SUPPORTING UNDERSERVED COMMUNITIES

Not Everyone Can Afford Clean Energy

- **Black and Hispanic populations exhibit 30% and 69% less rooftop PV adoption as compared to the average census tract.**

- **Only 31% of solar adopters came from below median income households.**

Source: NREL

Barriers to Clean Energy

- **High Upfront Costs**
- **Difficult for Renters**
- **Financing Options are Limited**
- **Systemic Inequities**

Impact of Clean Energy Investment

Clean energy solutions and energy efficiency /weatherization:

- **Can lower energy bills - reducing their energy burden.**
- **Positively impact health by improving indoor air quality, safety, and comfort.**
- **Create local jobs.**

MARISOL FEDERAL CREDIT UNION

Energy Lending

#UIS2024

Some MariSol Basics:

- MariSol is
 - a Community Development Financial Institution and
 - a Minority Deposit Institution
 - serving the greater Phoenix area (Maricopa County)
- \$50 million in assets
- Serving 7,500 members.
- 21 staff with 4 graduates of the Inclusiv /University of New Hampshire Solar Lending School

Why do energy lending?

- It is part of our core values and mission as a CDFI.
- In 2023, there were 645 heat-related deaths in Maricopa County. In 2024, there were 389 heat related deaths, with another 292 deaths under investigation, that could mean 681 heat deaths.
- In 2024, Phoenix experienced 113 consecutive days over 100 degrees.
- Keeping cool costs money. Reducing energy costs matters. Heat kills, so reducing the temperature matters.

Energy Efficient lending

Started lending 4th qtr. 2022. So far:

- \$1 million in solar loans made, 36% to low income.
- \$400,00 in energy efficient loans (mainly AC loans), 58% to low income.

An E-Loan can be used for:

- Installation of solar panels can include a battery
- Repair of the roof to install solar panels
- Energy-efficient windows
- Eternal window shades
- Solar water heater
- Energy-efficient water heater
- Heat pump or energy efficient air conditioning
- Solar Mini Split air conditioning unit

Things to consider

- Educate yourself about energy lending. Learn about costs, kilowatts and rebates.
- Work with good partners. MariSol uses the Smart E program with Inclusiv Prosperity Capital for our solar lending.
- Find community partners that will help you to educate lower income communities about the benefits of energy efficiency. It is not an easy sell.
- Make your loan products affordable to all credit scores and income levels. For us, that means all credit scores get the same low rate.

Things to consider

- As funding becomes available, find ways to lower the cost of the loan and the product.
- Find community partners and vendors that are willing to speak the language of your community.
- Vetting is important !
Especially solar vendors!
Price gouging is real!
Predatory tactics are real!
- Believe in your lending – it matters – again 113 consecutive days of 100+ degrees in Phoenix.

**CLIMATE
UNITED**

TODAY WE ARE DISCUSSING THE NATIONAL CLEAN INVESTMENT FUND, ONE OF THREE GGRF PROGRAMS

National Clean Investment Fund

\$14 BILLION
3 AWARDEES

- Focused on providing financial assistance to aid in the development and deployment of Qualified Projects
- Prioritizing scaled deployment, continued operability, and market transformation

Clean Communities Investment Accelerator

\$6 BILLION
5 AWARDEES

- Focused on providing grant capital to support local project development
- Prioritizing seeding the market across geographies to enable and develop qualified projects

Solar for All

\$7 BILLION
60 AWARDEES

- Focused on funding rooftop solar in disadvantaged communities ("Solar for All" programs) with/through state and local governments

Climate United is a collaboration of experienced mission-driven lenders and investors dedicated to bringing clean energy solutions to Justice40 communities across the country.

Self-Help®

SELF-HELP STANDARD PRODUCTS FOR CONSUMERS

	Home Decarbonization	Solar	Electric Vehicles
PRODUCT NAME	Green Mortgages and/or Home Renovation Loans	“Sun Savings”	“Electrify”
DETAILS	<ul style="list-style-type: none"> •Purchase of a Net-Zero Ready home •Or, purchase/refi plus renovation with >20% modeled energy reduction •Or, Consumer Loan to renovate home •High LTV, discounted interest rate for LIDAC 	<ul style="list-style-type: none"> •Solar panels and battery storage systems for single-family households •Also exploring community solar and third-party ownership (leasing) to build accessibility for LIDAC •Deep subsidy for LIDAC 	<ul style="list-style-type: none"> •New and used electric vehicles •Can finance EV charger with the loan •Battery Electric Vehicles (BEVs) and Plug-In Hybrid Vehicles (PHEVs) •Deep subsidy for LIDAC

PRIMARY PRODUCT APPROACHES

01

Standardized products originated locally and aggregated to leverage secondary markets

02

Direct investments into or Loan Loss Reserves supporting Community Lenders to facilitate standardized and tailored loans into qualified projects that will stay on the balance sheets of the Community Lenders

03

Direct investments from Climate United into qualified projects that require a customized financing solution and will stay on the balance sheet of Climate United

WHERE TO GO FOR CAPITAL SOLUTIONS

ARE YOU A LENDER?

Yes, but I am new to this type of climate finance

We recommend exploring opportunities through CCIA selectees to pursue TA, training, and capitalization grants to develop products/programs before seeking NCIF financing

Yes, and I am interested in originating and selling loans

SINGLE FAMILY / CONSUMER

Self-Help Climate Capital

MULTIFAMILY HOUSING

CPC Climate Capital

COMMERCIAL OR OTHER

Climate United (Calvert Impact)

Yes, and I am interested in originating and holding loans

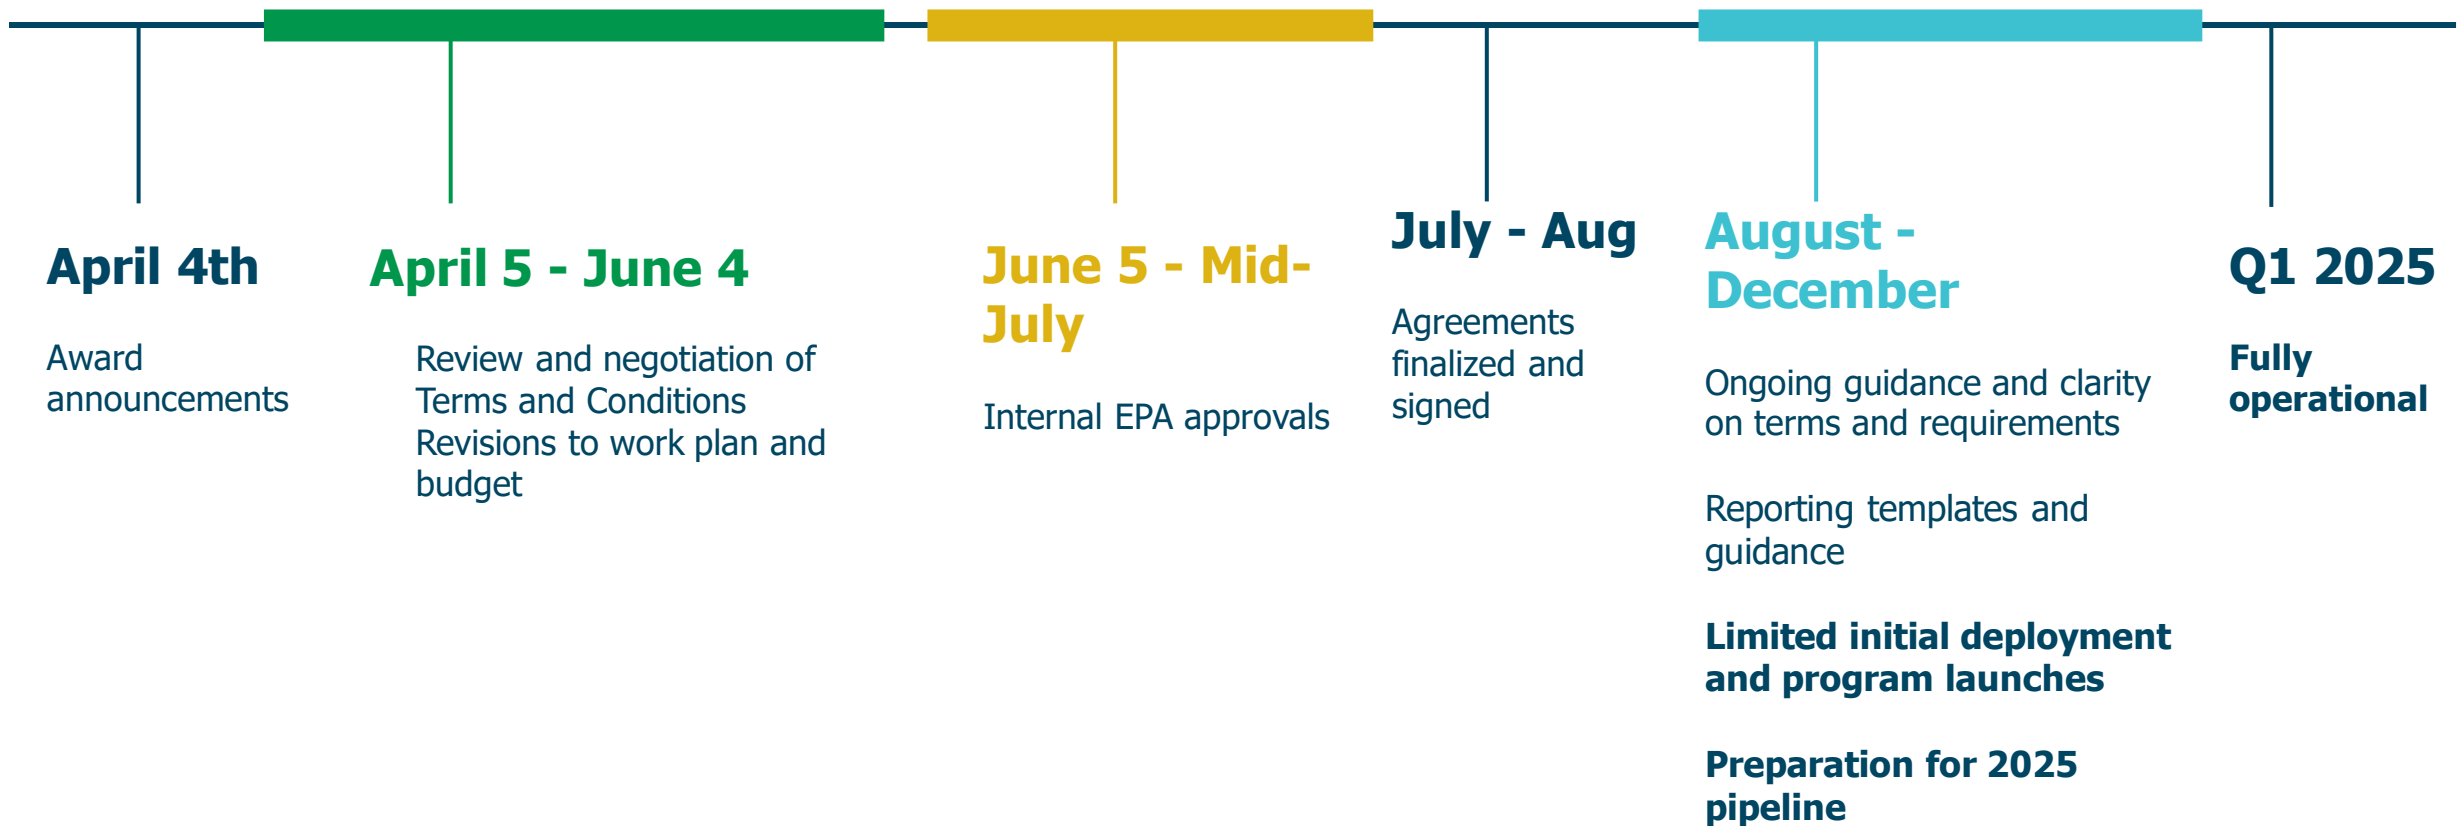

CREDIT UNIONS

Self-Help Climate Capital

CDFIS & GREEN BANKS

Climate United (Calvert Impact)

IMPLEMENTATION TIMELINE

April 4th

Award announcements

April 5 - June 4

Review and negotiation of Terms and Conditions
Revisions to work plan and budget

June 5 - Mid-July

Internal EPA approvals

July - Aug

Agreements finalized and signed

August - December

Ongoing guidance and clarity on terms and requirements

Reporting templates and guidance

Limited initial deployment and program launches

Preparation for 2025 pipeline

Q1 2025

Fully operational

members served
with banking and
financial services

Solar and Green Lending Training and Technical Assistance Program

University of New Hampshire - Inclusive

We built the nation's first green lending training program for community lenders

Originally Funded: by U.S. Department of Energy

We provide free, virtual training to teach CUs how to build their green loan programs, step-by-step

Impact:

- 400 community lenders trained (750+ staff) in 5 years
- 70 of these lenders invested \$3.38 billion in green projects in past 5 years

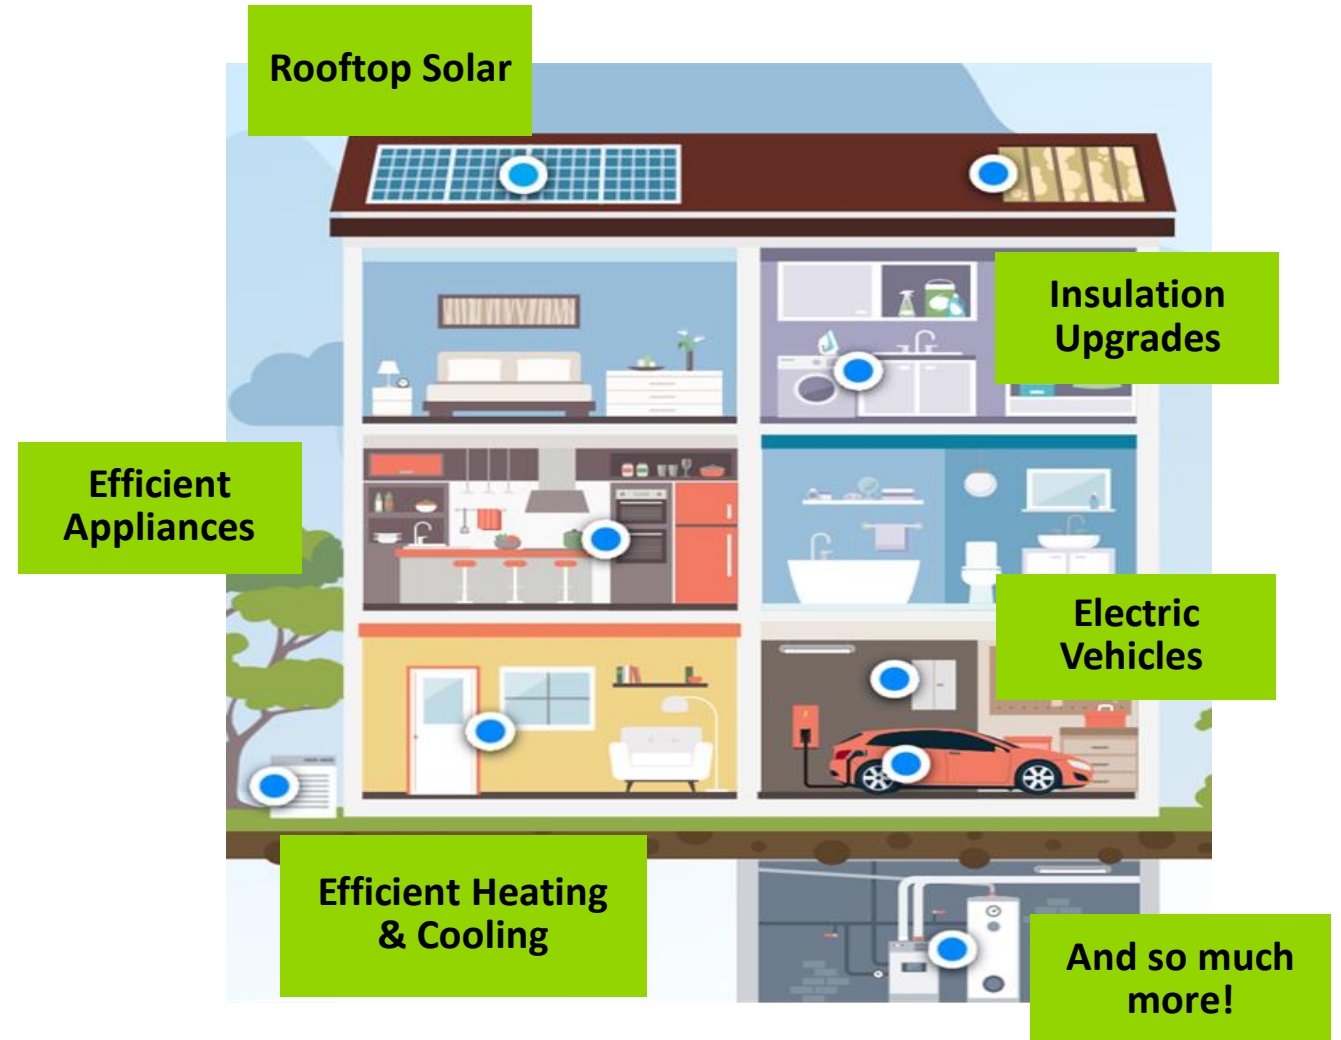

/ inclusiv /

So, What Does Credit Union Green Lending Look Like?

- **Affordable green loans for projects**
 - that lower utility bills
 - reduce air pollution, energy, and water usage
- **Credit unions already offer loan products that could be adapted for green lending:**
 - unsecured consumer loans
 - secured vehicle loans
 - chattel-secured “UCC-1”
 - home equity line of credit or loan
 - home improvement loans
 - appliance loans

Inclusive's \$1.68 Billion in Grants for Credit Unions

Inclusive awarded \$1.87 billion from CCIA

Inclusive CCIA funds will provide \$1.68 billion in grants to credit unions!

Inclusive will provide competitive grants to credit unions

- average \$3.5 million grants (maximum grant is \$11 million)
- to 300-400 credit unions over six years

CU CCIA Grants Will Be Used To:

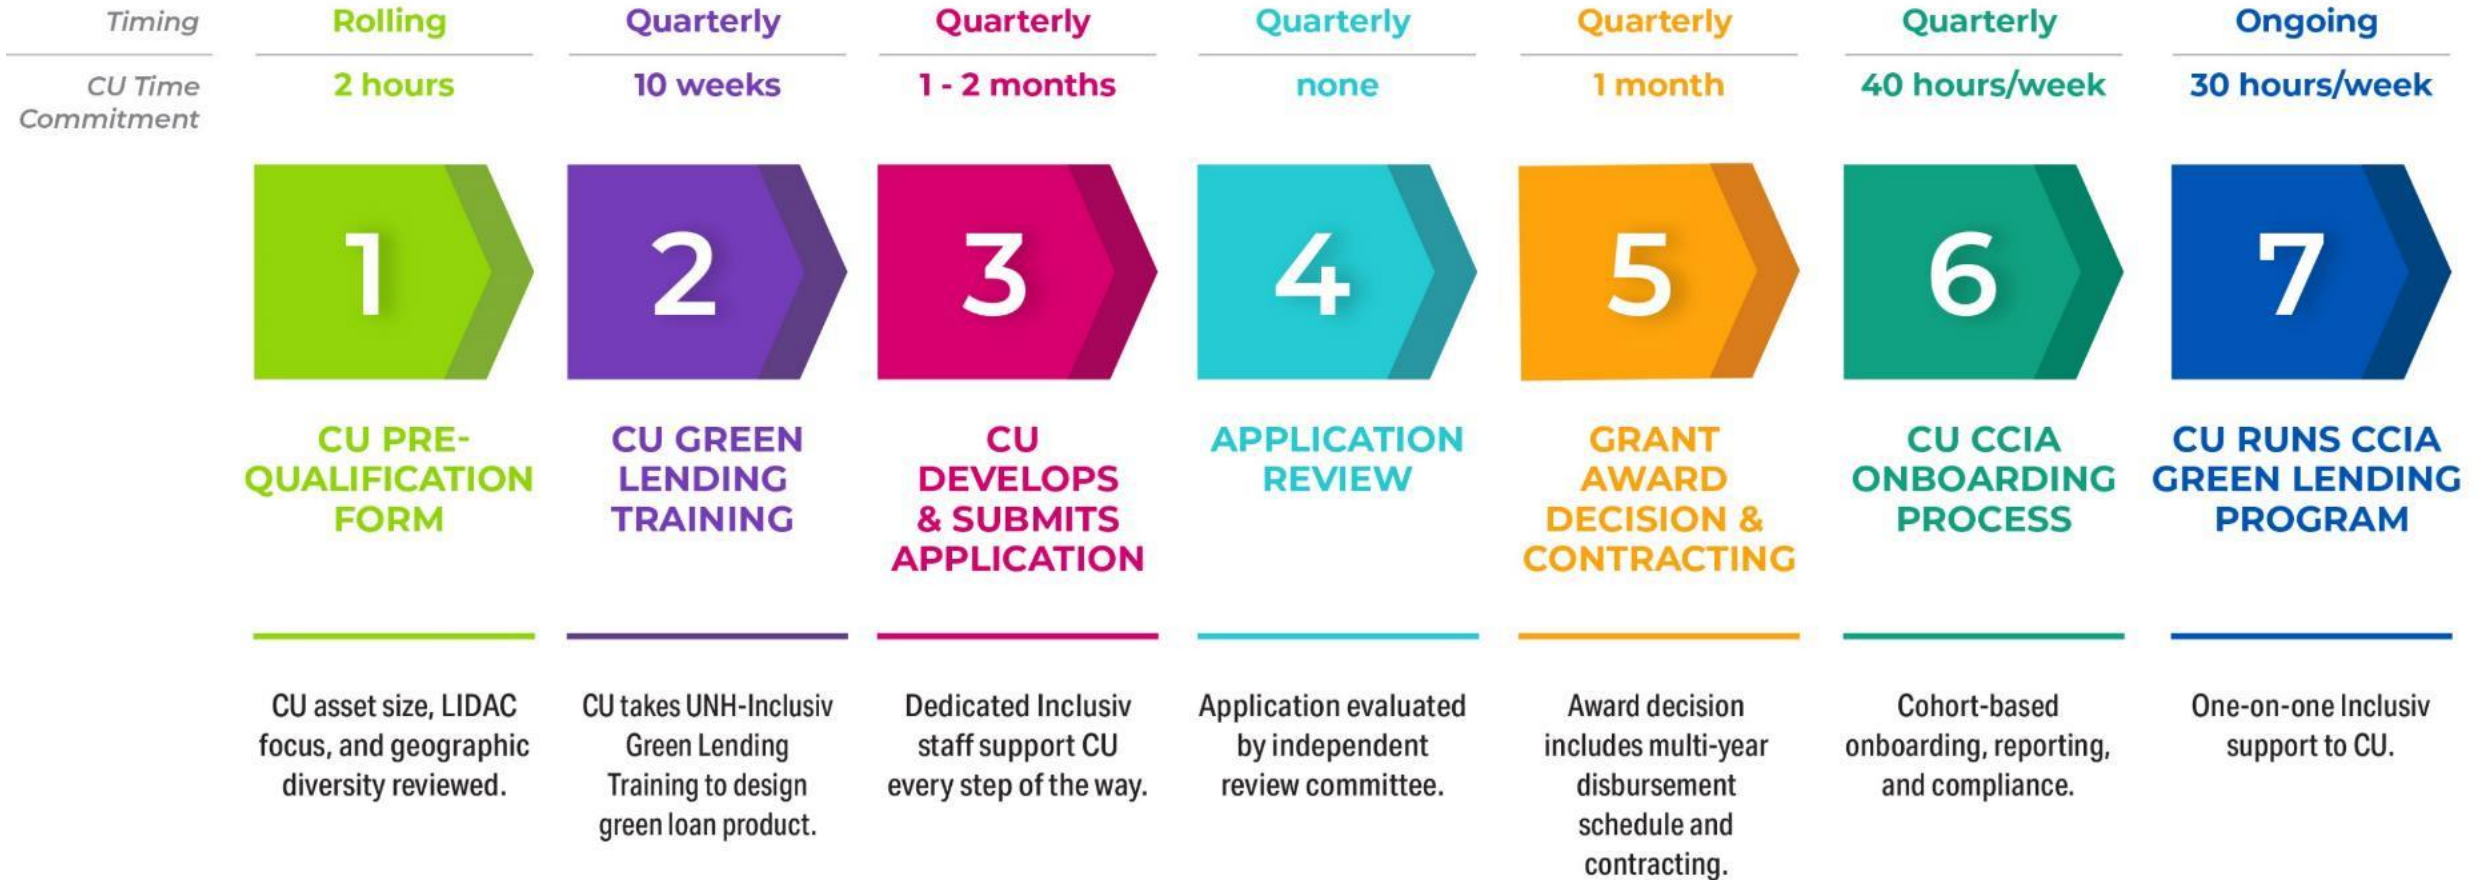

1. Provide capital and operating costs for green lending
2. Lower costs of energy upgrades for CU members
3. Support Low-Income and Disadvantaged Communities (LIDACs) - 100% of funds

Inclusive's CCIA Program Details

- All credit unions are eligible to apply
- Inclusive will support credit unions through the application process
- CCIA grant funds cover operating and capitalization costs
- Credit unions can offer familiar loan products using CCIA grant funds
- There are a wide range of energy projects that may be eligible for CCIA funds

Inclusive's CCIA Grant Application and Awarding Process

(Pre-Qualification Form Opens November 19, 2024 - Full Application Coming in Q1 2025)
