EFFECTIVE REPORTS: DRIVING CHANGE IN THE BRAZILIAN ECONOMY

How Recip is helping build a sustainability-driven strategic framework for Financial Cooperatives across Brazil.

DANIELLE TEIXEIRA | FENASBAC | BRAZIL

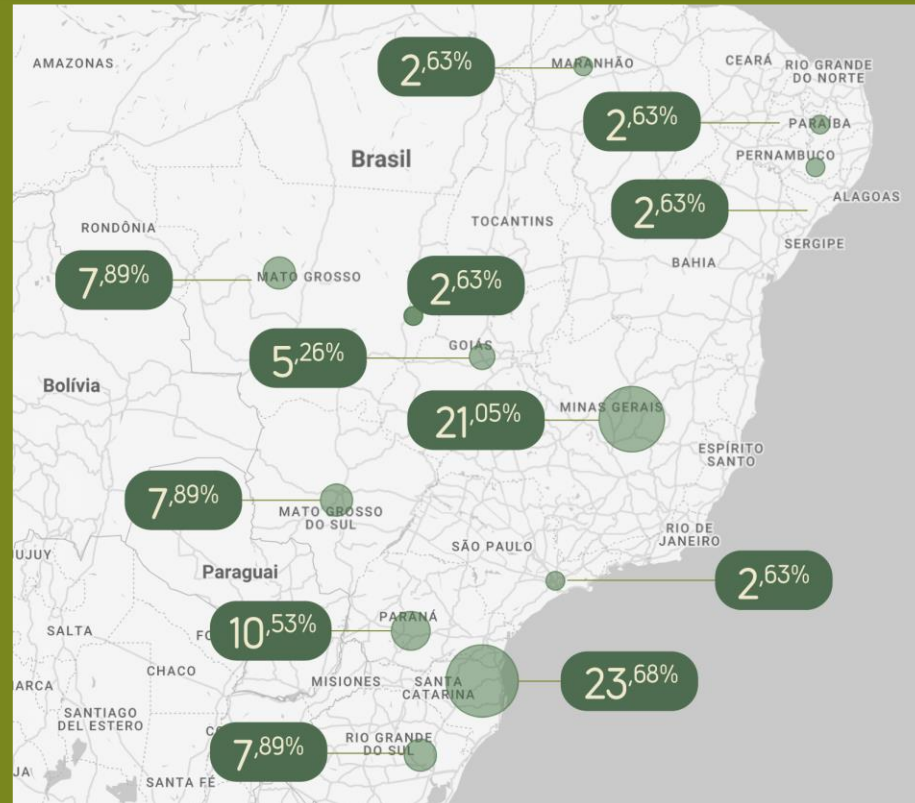

HOSTED BY

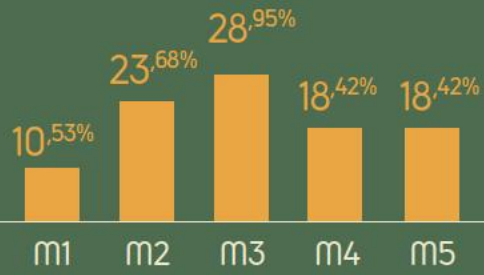

TESTIMONIAL

A "CONTINENTAL" EFFORT WITHIN THE COUNTRY

Being questioned on different pillars made us look at the various parts that make up this unit, allowing for an evaluation of our objectives, capabilities, and initiatives.

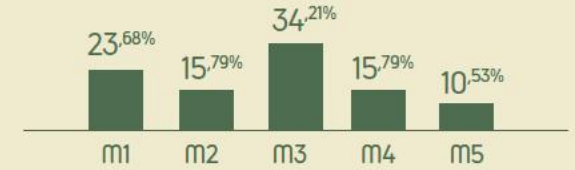

This assessment resulted in alignment between departments, discussions on improvement initiatives, standardization of practices focused on innovation, and the development of a management and governance system that brings transparency and visibility to the practices adopted by the cooperative to achieve our goals.
